Bharath Kumar Sriperumbudur Vangeepuram

Department of Statistics
The Pennsylvania State University
314 Thomas Building
University Park, PA 16802

Phone: +1 814 867 5948
Fax: +1 814 863 7114
Email: bks18@psu.edu
Homepage: https://bharathsv.github.io/

Nationality: USA

Research Interests

Machine Learning, Statistical Learning Theory, Non-parametric Estimation, Regularization and Inverse Problems, Reproducing Kernel Spaces in Probability and Statistics, Functional Data Analysis, Topological Data Analysis, Optimal Transport and Gradient Flows

Education

University of California, San Diego 09/2005–11/2010
Ph.D., Electrical and Computer Engineering (emphasis in Machine Learning and Computational Statistics)
Dissertation: *Reproducing Kernel Space Embeddings and Metrics on Probability Measures*
Advisor: Prof. Gert R. G. Lanckriet

Indian Institute of Technology, Kanpur, India 08/2000– 03/2002
M.Tech., Electrical Engineering (emphasis in Signal Processing)
Thesis: *A Model Based Approach to Non-Uniform Vowel Normalization*
Advisor: Prof. S. Umesh

Sri Venkateswara University, Tirupati, India 07/1995–06/1999
B.Tech., Electronics and Communication Engineering

Employment

Academic Positions

Department of Statistics, The Pennsylvania State University
Full Professor 07/2024–present
Associate Professor 07/2020–06/2024
Assistant Professor 08/2014–06/2020

Department of Mathematics, The Pennsylvania State University
Full Professor (by courtesy) 07/2024–present
Associate Professor (by courtesy) 01/2024–06/2024

Statistical Laboratory, University of Cambridge 09/2012–08/2014
Research Fellow in Statistics

Gatsby Computational Neuroscience Unit, University College London 12/2010–09/2012
Post-doctoral Research Associate

Visiting Positions[1]

The Institute of Statistical Mathematics, Tokyo — 10/2012
Host: Prof. Kenji Fukumizu

National ICT Australia, Canberra — 10/2011
Host: Prof. Robert Williamson

Faculty of Mathematical Sciences, Queensland University of Technology — 10/2011
Host: Prof. Peter Bartlett (also with the Department of Statistics, University of California-Berkeley)

Institute for Stochastics and Applications, University of Stuttgart — 04/2011
Host: Prof. Dr. Ingo Steinwart

Internships

The Institute of Statistical Mathematics, Tokyo — 10–12/2009
Advisor: Prof. Kenji Fukumizu

Max Planck Institute for Biological Cybernetics, Tübingen — 2007/2008
Advisors: Prof. Dr. Bernhard Schölkopf and Dr. Arthur Gretton

Swartz Center for Computational Neuroscience, University of California San Diego — 06–08/2006
Advisor: Dr. Scott Makeig

Industry Positions

Imaging Technologies Lab, General Electric Global Research, Bangalore, India — 04/2002–08/2005
Research Engineer

Wipro Technologies, Bangalore, India — 11/1999–07/2000
Systems Engineer

Honors, Awards & Fellowships

- IMS Fellow — 2026
- Rosenberger Outstanding Teaching Award, Pennsylvania State University — 2024
- Simons Visiting Professor, Mathematisches Forschungsinstitut Oberwolfach, Germany — 2023
- NSF CAREER Award — 2020
- Travel Award, Fourth Conference of the International Society for Nonparametric Statistics, Salerno — 2018
- Travel Award, Third Conference of the International Society for Nonparametric Statistics, Avignon — 2016
- Travel Award, Spring School on "Structural Inference in Statistics", Berlin — 2014
- Herman Goldstine Memorial Postdoctoral Fellowship in Mathematical Sciences, IBM Research[2] — 2012
- Travel Award, Workshop on "Machine Learning: Theory and Computation", Institute for Mathematics and its Applications, University of Minnesota — 2012
- Honorable Mention, Best Student Paper, Twenty-Third Annual Conference on Neural Information Processing Systems — 2009
- Travel Award, Twenty-Third Annual Conference on Neural Information Processing Systems — 2009
- Travel Award, International Conference on Machine Learning — 2007, 2008

[1] Only month long visits are mentioned here though there have been many academic visits for the duration of up to two weeks.
[2] Declined to accept the Research Fellow position at Statslab, University of Cambridge.

Travel Award, Machine Learning Summer School, Tübingen	2007
Cal-(IT)^2 Fellowship, University of California, San Diego	2005–2006
Bronze Patent Medal, General Electric Global Research, Bangalore	2004
Hats-off Award, General Electric Global Research, Bangalore	2003
General Electric Scholarship	2000–2002

Publications

Invited & Contributed Talks

Upcoming Talks (Invited)

Stein's Method meets Statistical Learning, Banff International Research Station, Banff, June 3, 2026.

2026 IMS Annual Meeting: Invited Session on Inference Without Borders: Methods for Random Objects Beyond Euclidean Data, Salzburg, Austria, July 6-9, 2026.

Uncertainty Quantification Summer School, University of Southern California, Los Angeles, August 12-14, 2026.

35th European Meeting of Statisticians, Invited Session on Functional Data Analysis, Lugano, Switzerland, August 24-28, 2026.

IMSI Workshop on Statistical Foundations for the Analysis of Non-Euclidean Data, University of Chicago, October 19-23, 2026.

IMSI Workshop on Random Objects and Metric Statistics for Connectomics, University of Chicago, November 30-December 4, 2026.

Conference on "Applied Harmonic Analysis and Data Science", Indian Institute of Technology Madras, Chennai, India, December 15-18, 2026.

(De)regularized Maximum Mean Discrepancy Gradient Flow

The Second Sydney Workshop on Mathematics of Data Science, University of Sydney, December 10, 2025

(De)regularized Wasserstein Gradient Flows via Reproducing Kernels

SwissMAP 2026 Workshop on Computational Optimization Meets Optimal Transport, Les Diablerets, Switzerland, May 27, 2026.

Workshop on Functional Inference and Machine Intelligence (FIMI), Tokyo, Japan, March 5, 2026.

Optimization for Machine Learning and AI seminar, Halicioglu Data Science Institute, University of California, San Diego, February 27, 2026

Department of Computer Science and Automation, The Indian Institute of Science, Bengaluru, December 15, 2025

Wasserstein Gradient Flows in Math and Machine Learning, Banff International Research Station, Banff, July 1, 2025

Duality, Statistics and Geometry of Gromov-Wasserstein Distance

Uncertainty in Multivariate, Non-Euclidean, and Functional Spaces: Theory and Practice, Isaac Newton Institute, Cambridge, May 8, 2025

Minimax Optimal Goodness-of-Fit Testing with Kernel Stein Discrepancy

Department of Statistics, London School of Economics and Political Science, December 6, 2024

A Kernel Hike Through the Machine Learning Forest

Public Lecture, Department of Statistics, Pennsylvania State University, March 21, 2024

Gromov-Wasserstein Distances: Entropic Regularization, Duality, and Sample Complexity

Future Perspectives of AI and Data Sciences: Algorithms and Applications, IIITDM, Kancheepuram, India, December 5, 2024

Department of Mathematics, Pennsylvania State University, January 25, 2024

Session on Empirical Measures and Smoothing Methods, CMStatistics, Berlin, Germany, December 17, 2023

Télécom Paris, Institut Polytechnique de Paris, November 30, 2023

Department of Statistics, London School of Economics and Political Science, October 13, 2023

Spectral Regularized Kernel Two-Sample Tests

Session on Kernel Methods for Nonparametric Inference, IISA Conference, Lincoln, Nebraska, June 13, 2025

Department of Mathematics, Applied Mathematics & Statistics, Case Western Reserve University, April 19, 2024

Department of Statistics & Data Science, Cornell University, March 27, 2024

Session on Advances in Kernel Methods and Gaussian Processes, CMStatistics, Berlin, Germany, December 16, 2023

Oberseminar, Faculty of Mathematics, University of Bayreuth, Germany, November 22, 2023

Statistics and Machine Learning Seminar, Department of Statistics, Carnegie Mellon University, November 9, 2023

Pattern Theory Group Seminar, Department of Applied Mathematics, Brown University, November 1, 2023

Gatsby Unit for Computational Neuroscience, University College London, UK, October 9, 2023

Session on Statistical Learning and Inference Using Kernel, Distance, and Rank, ICSA Applied Statistics Symposium, Michigan, June 13, 2023

Department of Mathematics, State University of New York, Albany, April 3, 2023

Session on Advances in Statistical Learning Theory, IISA Conference, Bengaluru, India, December 27, 2022

Workshop on Measure-theoretic Approaches and Optimal Transportation in Statistics, November 24, 2022

Regularized Stein Variational Gradient Flow

Workshop on Variational Methods for Evolution, Mathematisches Forschungsinstitut Oberwolfach, Germany, December 6, 2023

Workshop on Next Generation Kernel Methods, University of New Castle Upon Tyne, UK, October 19, 2023

MaD Seminar, New York University, November 17, 2022

Kernel Measures of Dependence and Conditional Dependence

The 34th New England Statistics Symposium, Providence, RI, October 2, 2021

Robust Persistence Diagrams Using Reproducing Kernels

Fourth International Conference on Econometrics and Statistics, June 25, 2021
SIAM Conference on Computational Science and Engineering, March 4, 2021

Johnson & Lindenstrauss Meet Hilbert at a Kernel

Machine Learning and Dynamical Systems Seminar, Alan Turing Institute, October 26, 2023
Department of Computing, Imperial College London, October 12, 2023
International Conference on Analysis, Inverse Problems and Applications, July 18, 2022
Fifth International Conference on Econometrics and Statistics, June 5, 2022
IBM T. J. Watson Research Center, New York, July 15, 2021
52émes Journées de Statisque de la Société Française de Statistique, Semi-Plenary Session, June 8, 2021
Statistics Seminar, CREST-CMAP, University of Paris-Saclay, April 19, 2021

Gain with No Pain: Efficient Kernel PCA by Nyström Sampling

Third International Conference on Econometrics and Statistics, Taichung, June 25, 2019
Approximation Theory 16, Nashville, TN, May 20, 2019
The 33rd New England Statistics Symposium, Hartford, CT, May 17, 2019

Distribution Regression: Computational vs. Statistical Trade-off

Department of Mathematics, Pennsylvania State University, University Park, September 30, 2019
Third International Conference on Mathematics of Data Science, Hong Kong, June 21, 2019
Inverse Problems and Machine Learning Workshop, University of Montréal, May 29, 2019
Rao Prize Conference, Pennsylvania State University, May 6, 2019
Functional Inference and Machine Intelligence Workshop, The Institute of Statistical Mathematics, Tokyo, March 28, 2019

Minimax Estimation of Quadratic Fourier Functionals

Data, Learning and Inference (DALI) Workshop, George, January 5, 2019

Measures of (In)dependence Using Positive Definite Kernels

Theoretical Statistics and Mathematics Unit, Indian Statistical Institute, Bangalore, August 24, 2018
Recent Developments in Dependence Metrics and their Applications, 4th ISNPS Conference, June 13, 2018

Approximate Kernel PCA: Computational vs. Statistical Trade-off

Department of Mathematics, Indian Institute of Technology, New Delhi, July 28, 2022
Department of Mathematics, State University of New York, Albany, October 12, 2020
Stochastic Seminar, Department of Mathematics, Georgia Tech, October 8, 2020
Department of Statistics, University of Georgia, September 24, 2020
International Conference on Statistical Distributions and Applications, Grand Rapids, MI, October 12, 2019
Department of Industrial and Manufacturing Engineering, Pennsylvania State University, University Park, October 10, 2019
Department of Statistics, University of Kentucky, Lexington, September 20, 2019
Microsoft Research, Bangalore, August 30, 2018
Department of Computer Science and Automation, Indian Institute of Science, Bangalore, August 21, 2018

IBM India Research Lab, Bangalore, August 14, 2018

9th International Purdue Syposium on Statistics, June 8, 2018

50émes Journées de Statisque, Semi-Plenary Session, Paris-Saclay, May 29, 2018

Functional Inference and Machine Intelligence Workshop, The Institute of Statistical Mathematics, Tokyo, February 20, 2018

Inverse Problems and Machine Learning Workshop, Caltech, February 11, 2018

Statistical Consistency of Kernel PCA with Random Features

Session on Nonparametrics, 55th Annual Allerton Conference on Communication, Control and Computing, October 6, 2017

Center for Applied Mathematics, École Polytechnique, July 6, 2017

Department of Mathematics, University of Stuttgart, June 29, 2017

Shrinkage Estimation in Reproducing Kernel Hilbert Spaces

BLISS Seminar, Department of EECS, University of California, Berkeley, November 15, 2017

Center for Applied Mathematics, École Polytechnique, July 4, 2017

Machine Learning Seminar, Carnegie Mellon University, February 7, 2017

Random Fourier Features and Beyond

New Directions for Learning with Kernels and Gaussian Processes, Dagstuhl Seminar 16481, December 1, 2016

On the Kernel Choice in RKHS-based Two Sample Tests

Third Conference of International Society for Nonparametric Statistics, Avignon, June 12, 2016

Minimax Estimation of Kernel Mean Embeddings

Gatsby Unit, University College London, May 4, 2016

Department of Statistics, University of Oxford, May 3, 2016

Density Estimation in Infinite Dimensional Exponential Families

Department of Statistics, George Mason University, March 23, 2018

Flexible Modeling Workshop, The 10th ICSA International Conference, December 22, 2016

Department of Statistics, London School of Economics & Political Science, April 29, 2016

Department of Mathematics, University of Delaware, April 6, 2016

Department of Operations Research and Financial Engineering, Princeton University, April 4, 2016

Department of Statistics, Pennsylvania State University, September 18, 2015

Department of Statistics, University of Wisconsin-Madison, April 29, 2015

Data, Learning and Inference (DALI) Workshop, La Palma, April 12, 2015

Modern Non-parametrics Workshop, NIPS 2014, December 13, 2014

Department of Statistical Science, University College London, June 19, 2014

Department of Engineering, University of Cambridge, May 14, 2014

Department of Statistics, University of Oxford, May 9, 2014

Department of Statistics, Columbia University, May 2, 2014

Sixth International Conference of the ERCIM WG on Computational and Methodological Statistics (ERCIM 2013), December 14, 2013

Max Planck Institute for Intelligent Systems, October 9, 2013

Kernel Mean Shrinkage Estimators

Department of Statistics, University of Wisconsin-Madison, April 29, 2015

RKHS Induced Infinite Dimensional Exponential Families: Density Estimation and Beyond

Weierstrass Institute for Applied Analysis and Stochastics, July 10, 2013

Mixture Sieve Density Estimation and Hilbert Space Embedding of Measures

School of Computing, National University of Singapore, October 31, 2011

National ICT Australia, Canberra, October 27, 2011

Faculty of Mathematical Sciences, Queensland University of Technology, Brisbane, Australia, October 20, 2011

Hilbert Space Embeddings and Metrics on Probability Measures

Statistische Woche 2013 (German Statistical Week), Freie Universität Berlin, September 20, 2013

School of Engineering, Computing and Mathematics, University of Exeter, December 10, 2012

Eighth World Congress in Probability and Statistics, Istanbul, Turkey, July 9, 2012

Department of Pure Mathematics and Mathematical Statistics, University of Cambridge, UK, March 9, 2012

Department of Computer Science and Engineering, Pennsylvania State University, State College, February 24, 2012

Department of Statistics, Pennsylvania State University, State College, February 23, 2012

Department of Mathematics, London School of Economics and Political Science, UK, February 9, 2012

Toyota Technological Institute, Chicago, Illinois, March 3, 2011

Department of Statistics, University of Warwick, Coventry, UK, February 25, 2011

Gatsby Computational Neuroscience Unit, University College London, June 8, 2010

Machine Learning Group, University of Tokyo, Japan, November 18, 2009

Workshop on Machine Learning Methods in Statistical Science, The Institute of Statistical Mathematics, Tokyo, October 23, 2009

Department of Electrical Communication Engineering, Indian Institute of Science, Bangalore, India, December 16, 2008

Non-Parametric Estimation of Integral Probability Metrics

IEEE International Symposium on Information Theory, Austin, Texas, June 15, 2010

On the Relation Between Universality, Characteristic Kernels and RKHS Embedding of Measures

Thirteenth International Conference on Artificial Intelligence and Statistics, Sardinia, Italy, May 15, 2010

On the Convergence of the Concave-Convex Procedure

Workshop on Optimization for Machine Learning, Whistler, Canada, December 12, 2009

Kernel Choice and Classifiability for RKHS Embeddings of Probability Distributions

Twenty-Third Annual Conference on Neural Information Processing Systems, Vancouver, Canada, December 9, 2009

The Sparse Eigenvalue Problem

Department of Computer Science and Automation, Indian Institute of Science, Bangalore, India, December 10, 2008

Injective Hilbert Space Embeddings of Probability Measures

Twenty-First Annual Conference on Learning Theory, Helsinki, Finland, July 10, 2008

Max Planck Institute for Biological Cybernetics, Tübingen, Germany, July 1, 2008

Metric Embedding for Kernel Classification Rules

Twenty-Fifth International Conference on Machine Learning, Helsinki, Finland, July 8, 2008

Finding Musically Meaningful Words Using Sparse CCA
Music, Brain and Cognition Workshop, Whistler, Canada, December 7, 2007

Sparse Eigen Methods by D.C. Programming
Max Planck Institute for Biological Cybernetics, Tübingen, Germany, July 11, 2007
Twenty-Fourth International Conference on Machine Learning, Corvallis, Oregon, June 23, 2007

Conference/Workshop/Session Organization

Co-organizer, PSU-Purdue-UMD Joint Seminar on Mathematical Data Science, September 2023–present

Organizer, Invited Session on *Recent Advances in Machine Learning* at EcoSta Conference, Kyoto, Japan, June 5, 2022

Organizer, Invited Session on *Nonparametric Methods and Learning Theory* at IISA Conference, Mumbai, India, December 30, 2019

Organizer, Invited Session on *Approximation, Learning and Inference with Positive-Definite Kernels* at ISNPS Conference, Salerno, Italy, June 15, 2018

Co-organizer, NIPS Workshop on *Learning on Distributions, Functions, Graphs and Groups*, Long Beach, California, USA, December 8, 2017

Co-organizer, NIPS Workshop on *Adaptive and Scalable Nonparametric Methods in Machine Learning*, Barcelona, Spain, December 10, 2016

Co-organizer, ICML Workshop on *RKHS and Kernel-based Methods: Theoretical Topics and Recent Advances*, Edinburgh, UK, July 1, 2012

Grants

Reproducing Kernel Hilbert Space Embedding of Measures: Theory and Applications to Statistical Learning. NSF DMS 1713011. $178,251 2017-2020

Statistical Learning, Inference and Approximation with Reproducing Kernels. NSF DMS CAREER Award 1945396. $400,000 2020-2025

Collaborative Research: Synergies between Stein's Identities and Reproducing Kernels: Modern Tools for Nonparametric Statistics. NSF DMS 2413425. $179,999 2024-2027

Professional Activities

Associate Editor, Journal of American Statistical Association (2026–present)

Associate Editor, Annals of Statistics (2025–present)

Associate Editor, Bernoulli (2025–present)

Associate Editor, Statistics and Probability Letters (2024–present)

Action Editor, Journal of Machine Learning Research (2021–present)

Associate Editor, Mathematical Foundations of Computing (2020–present)

Editorial Board, Journal of Machine Learning Research (2015–2021)

Scientific Committee, Workshop on Lifting Inference with Kernel Embeddings (2022, 2023)

Senior Program Committee Member, International Conference on Machine Learning (2018, 2025)

Senior Program Committee Member, Neural Information Processing Systems (2013, 2015–2019, 2024)

Senior Program Committee Member, Artificial Intelligence and Statistics (2016–2023)

Senior Program Committee Member, Conference on Learning Theory (2021–2024)

Senior Program Committee Member, Algorithmic Learning Theory (2020, 2024)

Journal Reviewing: Annals of Statistics, Annals of the Institute of Statistical Mathematics, Analysis Mathematica, Applied and Computational Harmonic Analysis, Bernoulli, Biometrika, Constructive Approximation, Electronic Journal of Statistics, Foundations of Computational Mathematics, Foundations of Data Science, IEEE Transactions on Information Theory, IEEE Transactions on Pattern Recognition and Machine Intelligence, Memoirs of the American Mathematical Society, IEEE Transactions on Signal Processing, Journal of American Statistical Association, Journal of Applied and Computational Topology, Journal of Machine Learning Research, Journal of Royal Statistical Society (Series B), Machine Learning, Neural Computation, Scandinavian Journal of Statistics, SIAM Journal on Mathematics of Data Science, Signal Processing Magazine, Statistics and Computing, Statistical Science

Conference Reviewing: International Conference on Machine Learning (ICML), International Conference on Learning Representations (ICLR), International Conference on Artificial Intelligence and Statistics (AISTATS), Advances in Neural Information Processing Systems (NIPS), Conference on Learning Theory (COLT), International Symposium on Information Theory (ISIT), International Conference on Acoustics, Speech and Signal Processing (ICASSP), International Joint Conference on Artificial Intelligence (IJCAI)

NSF DMS CAREER Statistics Panelist (2023, 2025)

NSF DMS Statistics Panelist (2019, 2021, 2025)

Teaching

Instructor, Research School: Statistical and Geometric Divergences for Machine Learning, University of Rennes 2, Rennes 06/2022
Kernel Based Distances and Applications in Statistics and Machine Learning (3 hours)

Instructor, Data Science Summer School, École Polytechnique, Paris 06/2019
Learning with Positive Definite Kernels: Theory and Applications (3 hours)

Instructor, Machine Learning Summer School, MPI for Intelligent Systems, Tübingen 06/2017
Introduction to Kernel Methods (3 hours)

Instructor, Pennsylvania State University
STAT 508 *Applied Data Mining and Statistical Learning* 01–05/2026
STAT 515 *Stochastic Processes and Monte-Carlo Methods* 01–05/2026

Supervisor (King's College), University of Cambridge 01–06/2013
1B *Statistics*

Lecturer, University of Cambridge 01–03/2013
IIC *Statistical Modelling*

Co-Instructor, University College London 01–04/2012
COMPGI13 *Advanced Topics in Machine Learning*
Adaptive Modelling of Complex Data

Teaching Assistant, University of California San Diego 04–06/2010
ECE 273 *Convex Optimization and Applications*

Instructor, Edison Engineer Development Program, General Electric Global Research 2004–2005
Signals & Systems

Teaching Assistant, Indian Institute of Technology Kanpur
EE 380 *Electrical Engineering Lab* 08–12/2001
EE 370 *Digital Electronics and Microprocessor Technology* 01–05/2001

Advising

Postdoctoral Mentor:

Sakshi Arya (08/2021–07/2023) [*Tenure-Track Assistant Professor, Department of Mathematics, Applied Mathematics, and Statistics, Case Western Reserve University*]

Naveen Gupta (10/2025–present)

PhD Thesis Advisor:

Nicholas Sterge (08/2016–10/2021) [*Flow Traders, New York*]

Siddharth Viswanath (08/2018–06/2023) [*SEW Visiting Assistant Professor, Department of Mathematics, UC San Diego*]

Omar Hagrass (08/2019–05/2024) [*DataX Postdoctoral Research Associate, Department of Operations Research and Financial Engineering, Princeton University*]

Sowmya Mukherjee (06/2022–present)

Aratrika Mustafi (06/2022–present)

Byong-ho Lee (08/2024–present)

Nathan Weaver (08/2024–present)

Beomsu Kim (05/2026–present)

Gyumin Lee (05/2026–present)

PhD Thesis Co-advisor:

Nikolas Siapoutis (08/2018–05/2022) [*Assistant Teaching Professor, Department of Statistics, University of Pittsburgh*]

Tianhong Sheng (08/2018–07/2022) [*Senior Data Scientist, Meta*]

MS Thesis Advisor:

Benjamin Straub (08/2017–05/2018) [*Principal Programmer, GSK, Philadelphia*]

Aniruddha Rajendra Rao (08/2017–06/2019) [*Data Scientist, Google*],

Nikolas Siapoutis (08/2018–06/2019) [*Assistant Teaching Professor, Department of Statistics, University of Pittsburgh*]

PhD Academic Advisor:

Jordan Awan, Aniruddha Rajendra Rao, Roopali Singh and Alex Zhao, Department of Statistics, Pennsylvania State University 08/2016–05/2018

Undergraduate Honor's Thesis Advisor:

Zhenyuan Yuan (12/2016–05/2018) [*PhD, Department of EECS, Pennsylvania State University* $\longrightarrow$ *Research Associate, Virginia Tech Transportation Institute*]

James Good (05/2026–present)
